Chairman's Message

Dear Fellow Shareholders,

It is with great pleasure and a profound sense of responsibility that I present the annual report for Maan Aluminium Limited. This year has been filled with both remarkable achievements and significant challenges, and I am honoured to share with you the strides we have made and the path that lies ahead.

Reflecting on Our Achievements

As we look back on the past year, I am proud to report that Maan has continued to strengthen its position as a leading player in the aluminium extrusion industry. Our commitment to excellence and innovation has been unwavering, and the results are evident in our performance.

- **Operational Excellence:** We have achieved a 20% increase in production capacity of value added products, thanks to our strategic investments in state-of-the-art technology and infrastructure. This has not only enhanced our operational efficiency but also allowed us to meet the growing demands of our customers with greater precision.
- **Financial Performance:** Despite the fluctuating market conditions, we have posted a robust financial performance, with a 17% increase in revenue. FY 2023-24 revenue stood at ₹. 95302.77 lacs compared to the previous year FY 2022-23 at ₹. 81385.49 lacs. We have seen a significant drop in profitability from the previous year our PBT stands at ₹. 4397.27 lacs for FY 2023-24, down by 34%. We have worked significantly in debt reduction and this can be seen in our results as well, our debt to equity stands at 0.20 compared to 0.42 in previous financial year.
- **Sustainability Initiatives:** Our dedication to sustainable practices remains at the core of our operations. We work tirelessly to reduced our carbon footprint and have made significant strides in recycling and waste management. These efforts are not just good for the environment but also align with our long-term strategic goals.

Addressing Challenges

While we celebrate our success, we must also acknowledge the challenges we have faced. The global economic landscape has been volatile, with fluctuations in raw material prices and supply chain disruptions affecting our operations. However, our proactive approach and strategic planning have enabled us to navigate these challenges effectively. Our teams have demonstrated resilience and adaptability, and I am confident that we will continue to overcome obstacles and turn challenges into opportunities for growth.

Looking Ahead

As we move forward, our focus remains on sustaining our growth and enhancing shareholder value. We are committed to:

- **Innovation and R&D:** Investing in research and development to drive innovation and create cutting-edge products that meet the evolving needs of our customers.
- **Market Expansion:** Exploring new markets and diversifying our product portfolio to capture emerging opportunities and strengthen our global presence.
- **Talent Development:** Fostering a culture of excellence and investing in our people to ensure that we have the skills and expertise needed to drive our business forward.

Acknowledgements

I would like to take this opportunity to extend my heartfelt gratitude to all our stakeholders – our dedicated employees, valued customers, supportive shareholders, and trusted partners. Your unwavering support and commitment have been instrumental in our success.

A special thanks to the Board of Directors for their guidance and to the entire management team for their hard work and dedication. Together, we have achieved significant milestones, and together, we will continue to build a brighter future for Maan Aluminium Limited.

Conclusion

In closing, I am optimistic about the future of our company. With a clear vision, a strong foundation, and a talented team, I am confident that Maan Aluminium Limited will continue to thrive and achieve new heights.

Thank you for your continued support and trust.

Thank you

Management Discussion and Analysis

Economic Scenario and Global Economic Outlook

Global growth is projected to be in line with the April 2024 World Economic Outlook (WEO) forecast, at 3.2 percent in 2024 and 3.3 percent in 2025. Services inflation is holding up progress on disinflation, which is complicating monetary policy normalization. Upside risks to inflation have thus increased, raising the prospect of higher for even longer interest rates, in the context of escalating trade tensions and increased policy uncertainty. The policy mix should thus be sequenced carefully to achieve price stability and replenish diminished buffers.

The baseline forecast is for the world economy to continue growing at 3.2 percent during 2024 and 2025, at the same pace as in 2023. A slight acceleration for advanced economies—where growth is expected to rise from 1.6 percent in 2023 to 1.7 percent in 2024 and 1.8 percent in 2025—will be offset by a modest slowdown in emerging market and developing economies from 4.3 percent in 2023 to 4.2 percent in both 2024 and 2025. The forecast for global growth five years from now—at 3.1 percent—is at its lowest in decades. Global inflation is forecast to decline steadily, from 6.8 percent in 2023 to 5.9 percent in 2024 and 4.5 percent in 2025, with advanced economies returning to their inflation targets sooner than emerging market and developing economies. Core inflation is generally projected to decline more gradually. The global economy has been surprisingly resilient, despite significant central bank interest rate hikes to restore price stability.

Industry Structure & Development

Aluminium is a metal of significant strategic importance to India, critical to almost all sectors of significance to modern life and essential to build a sustainable tomorrow. By virtue of its unusual properties like high strength-to-weight ratio, exceptional design flexibility, superior thermal & electrical properties, 100% recyclability over and over again, Aluminium's demand in space exploration, aviation, electric vehicles, renewable energy production, electricity transmission, construction, consumer goods, and more, is only slated to increase.

India is a leading player in the global Aluminium industry with the second largest Aluminium production capacity of about 4 million tonnes per annum (MTPA).

India's Aluminium demand is estimated to double again by the year 2025 with current resilient GDP growth rate driven by increasing urbanization and push for boosting domestic infrastructure, automotive, aviation, defence, and power sectors.

Indian Economy

India's real GDP is projected to grow between 6.5–7 per cent in 2024–25. The Indian economy recovered swiftly from the pandemic, with its real GDP in FY24 being 20 per cent higher than the pre-COVID, FY20 levels. This was stated by the Economic Survey 2023–24 presented in Parliament by the Union Minister of Finance and Corporate Affairs Smt Nirmala Sitharaman.

The Survey points out that the domestic growth drivers have supported economic growth in FY24 despite uncertain global economic performance. It also adds that during the decade ending FY20, India grew at an average annual rate of 6.6 per cent, more or less reflecting the long-run growth prospects of the economy.

The Survey, however cautions that any escalation of geopolitical conflicts in 2024 may lead to supply dislocations, higher commodity prices, reviving inflationary pressures and stalling monetary policy easing with potential repercussions for capital flows. This can also influence RBI's monetary policy stance. The global trade outlook for 2024 remains positive, with merchandise trade expected to pick up after registering a contraction in volumes in 2023.

The Survey highlights that leveraging the initiatives taken by the government and capturing the untapped potential in emerging markets; exports of business, consultancy and IT-enabled services can expand. Despite the core inflation rate being around 3 per cent, the RBI, with one eye on the withdrawal of accommodation and another on the US Fed, has kept interest rates unchanged for quite some time, and the anticipated easing has been delayed.

The Economic Survey says that India's economy showed resilience to a gamut of global and external challenges as real GDP grew by 8.2 percent in FY 24, exceeding 8 percent mark in three out of four quarters of FY 24, driven by stable consumption demand and steadily improving investment demand.

Opportunities and Threats

The aluminium business continues to be affected to a large extent by the volatility in the aluminium raw material prices, foreign exchange fluctuations and low quality aluminium products being dumped by neighbouring countries.

Business Performance

During FY 2023-2024, the Company has achieved production of 8456.81 MT as compared to 9127.66 MT during the previous year. Considering the installed capacity of 10,000 MT p.a., we have spare capacity to increase production and sales level. Accordingly Company has geared-up marketing activities and production, so as to achieve Production and sale of 10,000 MT.

Aluminium Market Analysis

- **Market Growth and Size:** The market is witnessing moderate growth on account of the increasing adoption of aluminium due to its lightweight properties, along with the rising demand for recyclable materials.
- **Technological Advancements:** Innovations in aluminium production, recycling, and applications assist in improving efficiency, reducing costs, and expanding the range of industry applications.
- **Industry Applications:** Aluminium finds diverse applications across industries, including construction, automotive, aerospace, and packaging.
- **Geographical Trends:** Asia Pacific leads the market, driven by the rising number of infrastructure projects. However, North America is emerging as a fast-growing market due to the increasing adoption of aluminum in aircraft manufacturing.
- **Competitive Landscape:** Key players are investing in research and development (R&D) activities to develop new alloys and enhance manufacturing processes.
- **Challenges and Opportunities:** While the market faces challenges, such as volatility in raw material prices, it also encounters opportunities in the growing focus on sustainable practices.
- **Future Outlook:** The future of the aluminium market looks promising, with the rising need to reduce carbon emissions. In addition, the introduction of various recycling technologies is expected to positively influence the aluminium market forecast.

Prospects

Rise in infrastructure development is expected to drive growth in the aluminium sector.

Demand for aluminium is expected to pick up as the scenario improves for user industries like power, infrastructure and transportation.

The Government of India's "National Mineral Policy" is expected to bring more transparency, better regulation and enforcement, balanced socio-economic growth along with sustainable mining practices in the aluminium sector.

Domestic demand is likely to remain robust driven by construction and packaging.

The Government of India in budget 2024-25 launched Pradhan Mantri-Surya Ghar Muft Bijli Yojana (PM Free Electricity scheme), to promote rooftop solar (RTS) installations in India by providing one crore households this is likely to increase in consumption of Aluminium in domestic market.

The increasing share of imports of aluminium products, including scrap, will continue to be a major concern for domestic aluminium producers. Over the last few years, the domestic rolled products industry has been witnessing an increase in dumping of imports especially from China, at unfair prices leading to the pricing pressure.

The adoption of strong, lightweight and formable aluminium sheets in vehicle parts and structures is driving growth in the automotive body sheet segment. This market is expected to record growth, despite some recent softening in European and Chinese demand.

The Indian government has plans to invest over US\$ 1 billion in its "Make in India" initiative. The aluminium industry will benefit from this as there is great demand to build new production facilities.

Risk and Concern

The Company has well defined structure which enable and empower management to identify, assess and leverage business opportunities and manage risk exposure in the organization effectively.

As per Risk Management framework and procedures, management treat various category of risks and take appropriate actions for its mitigation. For example, for higher priority risks, the Company has developed and implemented specific risk management plans that supports management in strategic decisions and funding considerations, if any. Lower priority risks are also monitored as per plan. Company has the process of communication, consultation, monitoring and periodical review of the risks and effectiveness of the mitigation plan.

The aluminium (metals) sector has provided investors healthy returns in certain time periods during the past decade but overall, the performance of the sector has been underwhelming.

Supply of primary aluminum is in excess as India is one of the largest producers of primary aluminium. However, due to limited scope of value addition within the country, primary aluminium producers export large quantities of primary aluminium products and companies import a sizeable quantity of downstream products.

Aluminum consumption in India at 3.10 kg per capita is much below the global average of 12 kg per capita. Demand for the metal is expected to pick up as the scenario improves for user industries, like power, infrastructure and transportation.

Most domestic players operate integrated plants. Bargaining power is limited in case of power purchase, as Government is the only supplier. However, increasing usage of captive power plants (CPP) will help to rationalize power costs to a certain extent in the long-term.

The company also has an internal risk committee that reviews the risk management process on a periodic basis.

QUALITY CONTROL

Your Company continues to focus on sustained quality control and has build a strong brand image among competition. The Company's manufacturing facility is accredited with the prestigious ISO-9001:2015, 14001:2015, IATF 8 CE Marking certification endorsing its strong quality systems. Your Company continues to focus on sustained quality control and has build a strong Brand image among competition.

Internal Control Systems and Their Adequacy

The Company is following a proper and adequate system of internal controls in respect of all its activities including safeguarding and protecting its assets against loss from unauthorized use of disposition. Further, all transactions entered into by the Company are duly authorized and recorded correctly. The Internal Auditors are submitting reports to the Company on a Quarterly basis.

The internal audit process is designed to review the adequacy of internal control checks and covers all significant areas of the company's global operations.

The company has an Audit Committee of the Board of Directors, the details of which have been provided in the corporate governance report.

Review of Company's Operation

During the year under review, earnings before interest, tax and depreciation (EBITDA) of the Company recorded ₹. 5233.77 lacs as compared to ₹. 7644.65 lacs in previous year.

Due to reduction in value added product orders and exports in current year EBITDA has declined however your company is geared up and looking forward to have good long term prospects.

The demand for aluminium may continue to be driven further by the pick-up in the infrastructure projects viz. bridges, roads, ports, metro rails and low budget housing segment, bringing opportunities for growth in this sector. The long-term outlook for aluminium is expected to be positive.

Explanatory Statement

[Pursuant to Section 102 of the Companies Act, 2013 (“Act”)]

As required by Section 102 of the Act, the following Explanatory Statement sets out all material facts relating to the business mentioned under Item Nos. 3, 4 & 5 of the accompanying Notice dated 13th August, 2024.

Item No. 3: Ratification of Remuneration of Cost Auditors

In accordance with the provisions of Section 148 of the Act read with Rule 14 of the Companies (Audit and Auditors) Rules, 2014, the Company is required to appoint a Cost Auditor to conduct audit of Cost Records of the Company.

The Board, on the recommendation of the Audit Committee has approved the appointment of Mr. Vivek Bothra, Cost Accountant (Membership No. 16308), Cost Accountants, as the Cost Auditors of the Company for the financial year ending March 31, 2025, at a remuneration of ₹. 90,000/- (Rupees Ninty Thousand only) plus applicable taxes and reimbursement of actual out-of-pocket expenses, if any. The remuneration payable to the Cost Auditors is required to be ratified by the members of the Company.

Accordingly, the consent of the members is sought for passing an Ordinary Resolution as set out at Item No. 4 of the Notice for ratification of the remuneration payable to the Cost Auditors for the financial year ending March 31, 2025.

None of the Directors, Key Managerial Personnel of the Company and their relatives are, in any way, concerned or interested, financially or otherwise, in the resolution at Item No. 3 of the Notice.

The Board recommends the passing of an Ordinary Resolution as set out at Item No. 3 of the accompanying notice.

Item No. 4 of the Notice:

Pursuant to Section 161 of the Companies Act, 2013 read with Articles of Association of the Company, and pursuant to the recommendation of the Nomination and Remuneration Committee, the Board of Directors of the Company, vide resolution dated August 13, 2024, appointed Mr. Sujoy Bhatia as an Additional Director in the capacity of Independent Director of the Company, for a term of 5 years with effect from August 13, 2024 to August 12, 2029, subject to approval of members of the Company.

Details pertaining to Remuneration as required under section 197(12) of the Companies act, 2013 read with rule 5(1) of the Companies (Appointment and Remuneration of Managerial Personnel) rules, 2014

1. Ratio of the remuneration of each Director / Key Managerial Personnel (KMP) to the median remuneration of all the employees of the Company for the Financial Year is as follows:

Median remuneration of all the employees of the Company for the Financial Year 2023-24 (in ₹.)	3.29 lacs p.a.
Percentage increase in the median remuneration of employees in the Financial Year	9%
Number of permanent employees (average) on the rolls of the Company as on 31 st March, 2024	225

Name of the Directors	Designation	Ratio of remuneration to median remuneration of All employees
Executive Director		
Mr. Ravinder Nath Jain	Chairman and Managing Director	40.05
Mr. Ashish Jain	Executive Director	27.19
Ms. Priti Jain	Executive Director	22.98
Mr. Naveen Gupta*	COO and Executive Director	6.07
KMP		
Mr. Sandeep Kumar Agarwal	CFO and Company Secretary	8.05

*Mr. Naveen Gupta has been appointed as COO and Director w.e.f. 28th July, 2023, further ratio of remuneration to median remuneration is also calculated on the basis of 8 months.

Note

Independent Directors were paid sitting fees & commission. Other Non-Executive Directors were not paid any remuneration during the financial year. Hence this is not applicable for Non-Executive Directors.

The ratio of remuneration of each Director and KMP to the median remuneration is based on the CTC of the remuneration for the year 2023-24 in their respective capacity as such Director or KMP. Percentage increase/(decrease) in remuneration is as follows –

Managing Director – 47%;

CEO/COO(#), – 53%;

CFO and Company Secretary 11%

(# Please note CEO position has been merged in COO in current financial year so combined increase/decrease in remuneration has been calculated)

2. Average percentile increase already made in the salaries of employees other than the managerial personnel in the last financial year and its comparison with the percentile increase in the managerial remuneration and justification thereof and point out if there are any exceptional circumstances for increase in the managerial remuneration:

The wage revision for staff cadre employees is done annually as per Company's HR Policy. In order to ensure that remuneration reflects Company performance, the performance pay & annual increment are also linked to organization performance, apart from an individual's performance. The individual increments for staff cadre employees are based on Cost to Company (CTC) consisting of Annual Base Salary and the performance/ variable pay. The percentage increase in remuneration of Mr. Ravinder Nath Jain, Chairman and Managing Director during the year are mentioned in table above.

Average increase in the remuneration of the employees other than the Managerial Personnel and that of the Key Managerial Personnel is in the line with the industry practice and industry trends. Average increase in the remuneration is also guided by factors like economic growth, inflation, mandatory increases, external competitiveness and talent retention. Whilst the Company endeavors on cost effective initiatives including employees cost being one of the key areas of cost monitoring and control, the results of any structural initiatives needs to be measured over a long-term horizon and cannot be strictly compared only with annual performance indicators.

3. The remuneration is as per the Remuneration Policy of the Company as posted on website of the Company at www.maanaluminium.com

Board Procedures and flow of information

The Board/Committee meetings are pre-scheduled, and a tentative annual calendar of the Board and Committee meetings is circulated to the Directors well in advance to facilitate them to plan their schedule and to ensure meaningful participation in the meetings. However, in case of special and urgent business needs, the Board's approval is taken by passing resolutions by circulation, as permitted by law, which are noted and confirmed in the subsequent Board Meeting.

In order to facilitate effective discussions at the meetings, the agenda is bifurcated into items requiring approval and items which are to be taken note of the Board. Clarification/queries, if any, on the items which are to be noted/taken on record by the Board are sought and resolved before the meeting itself. This ensures focused and effective discussions at the meetings.

The Board has adopted a 'safety-first' approach for all its discussions and deliberations. All meetings of the Board begin with an elaborate discussion on the Health and Safety initiatives of the Company which are then followed by review of the performance of the Company, review of financial results, industrial relations, Board succession planning, Strategic planning, governance and regulatory matters, declaration of dividend and such other matters as required under the Act, Listing Regulations and other applicable legislations.

Flow of information to the Board

The Board has complete access to all Company-related information. The Company Secretary is responsible for collation, review and distribution of all papers submitted to the Board and Committees thereof for consideration. The Chairman of the Board and the Company Secretary in consensus determine the Agenda for every meeting along with explanatory notes in consultation with the Managing Director. The Agenda for the meetings is circulated well in advance to the Directors to ensure that sufficient time is provided to Directors to prepare for the meeting.

All material information is circulated to the Directors before the meeting, including minimum information required to be made available to the Board as prescribed under Part A of Schedule II of the Listing Regulations. The management makes concerted efforts to continuously upgrade the information available to the Board for decision making and the Board members are updated on all key developments relating to the Company.

With the unanimous consent of the Board, all information which is in the nature of Unpublished Price Sensitive Information (UPSI), is circulated to the Board and its Committees at a shorter notice before the commencement of

the respective meetings on a secure platform.

The Company Secretary attends all the meetings of the Board and its Committees and is, inter alia, responsible for recording the minutes of such meetings. The draft minutes of the Board and its Committees are sent to the members for their comments in accordance with the Secretarial Standards. Thereafter, the minutes are entered in the minutes book within 30 (thirty) days of conclusion of the meetings, subsequent to incorporation of the comments, if any, received from the Directors.

The Company adheres to the provisions of the Act read with the Rules issued thereunder, Secretarial Standards and Listing Regulations with respect to convening and holding the meetings of the Board of Directors, its Committees and the General Meetings of the shareholders of the Company.

The maximum interval between any 2 (two) consecutive Board Meetings was well within the maximum allowed gap of 120 (one hundred and twenty) days. The necessary quorum was present for all the meetings.

Independent Auditor's Report

To,

The Members of Maan Aluminium Limited,

Report on the Audit of the Standalone Ind AS Financial Statements

Opinion

We have audited the accompanying standalone Ind AS financial statements of **Maan Aluminium Limited** ("the Company"), which comprise the Balance sheet as at March 31, 2024, the Statement of Profit and Loss, including the statement of Other Comprehensive Income, the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone Ind AS financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS"), and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2024, its profit including other comprehensive income its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone Ind AS financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Standalone Ind AS Financial Statements' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone Ind AS financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. We have determined that there are no key audit matters to communicate in our report.

Information Other than the Financial Statements and Auditors' Report Thereon

The Company's Management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's annual

report, but does not include the standalone financial statements and our auditors' report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rule, 2015, as amended.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone Ind AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always

detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Standalone Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Standalone Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Standalone Financial Statements

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a

statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ('the Order'), issued by the Central Government of India in terms of Section 143 (11) of the Act, we give in the "Annexure A", a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143 (3) of the Act, we report that:
 - a) We have sought and obtained all the information and explanations, which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
 - c) The standalone balance sheet, the standalone statement of profit and loss including other comprehensive income, the standalone statement of cash flows and the standalone statement of changes in equity dealt with by this report are in agreement with the books of account;
 - d) In our opinion, the aforesaid standalone financial statements comply with the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act;
 - e) On the basis of the written representations received from the directors as on 31 March 2024 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2024 from being appointed as a director in terms of Section 164 (2) of the Act; and

- f) With respect to the adequacy of the internal financial controls with reference to the standalone financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".
- g) With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
- i. The Company has disclosed the impact of pending litigations as at 31 March 2024 on its financial position in Note 36.1 to 36.2 to the standalone financial statements:
 - ii. The Company did not have any long-term contracts, including derivative contracts, for which there were any material foreseeable losses:
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company during the year ended 31 March 2024, except ₹. 0.67 lacs in respect of unpaid dividend of FY 2015-16 which is delayed deposited by 30 days by the company.
 - iv. (a) The management has represented that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other persons or entities, including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall:
 - Directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever ("Ultimate Beneficiaries") by or on behalf of the Company
 - Or provide any guarantee, security or the like to or on behalf of the Ultimate Beneficiaries;
 - (b) The management has represented that, to the best of its knowledge and belief, no funds have been received by the Company from any persons or entities, including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall:
 - Directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever ("Ultimate Beneficiaries") by or on behalf of the Funding Party or
 - Provide any guarantee, security or the like from or on behalf of the Ultimate Beneficiaries; and
 - (c) Based on such audit procedures as considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (iv)(a) and (iv)(b) contain any material misstatement.
 - v. The Company has not declared or paid dividend during the year therefore provision of section 123 of the Act is not applicable.
 - vi. Based on our examination, which included test checks, the Company has used accounting software for

maintaining its books of account for the financial year ended March 31, 2024 which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit we did not come across any instance of the audit trail feature being tampered with.

- h) With respect to the matter to be included in the Auditor's Report under Section 197(16) of the Act: In our opinion and according to the information and explanations given to us, the remuneration paid by the Company to its directors during the current year is in accordance with the provisions of Section 197 of the Act.

Annexure "A" To The Independent Auditor's Report Of Maan Aluminium Limited For The Year Ended 31st March, 2024.

(Refer to in our report of even date)

In terms of the information and explanations sought by us and given by the Company and the books of account and records examined by us in the normal course of audit and to the best of our knowledge and belief, we state that

i. a) (A) The Company has maintained proper records showing full particulars including quantitative details and situation of Property, Plant and Equipment and relevant details of right-of-use assets. (B) The Company does not have any intangible assets accordingly, this sub clause is not applicable to company.

b) Property, Plant and Equipment were physically verified during the year by the Management in accordance with a regular programme of verification which, in our opinion, provides for physical verification of all the Property, Plant and Equipment at reasonable intervals. According to the information and explanation given to us, no material discrepancies were noticed on such verification.

c) According to the information and explanations given to us and the records examined by us including registered title deeds, we report that, the title deeds, comprising all the immovable properties of land and buildings which are freehold, are held in the name of the Company as at the Balance Sheet date. In respect of immovable properties of land that have been taken on lease and disclosed as Right of Use Assets in the financial statements, the lease agreements are in the name of the Company, where the Company is the lessee in the agreement.

Annexure “B” To The Independent Auditor’s Report Of Maan Aluminium Limited For The Year Ended 31st March, 2024.

(Refer to in our report of even date)

Report on the internal financial controls under clause (i) of sub-section 3 of section 143 of the Act.

We have audited the internal financial controls over financial reporting of Maan Aluminium Limited (“the Company”) as of 31 March, 2024 in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

Management’s responsibility for internal financial controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal controls over financial reporting criteria established by the Company considering the essential components of internal controls stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (“ICAI”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act 2013 (“the Act”).

Auditor’s responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal controls based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial control system over financial reporting.

Meaning of internal financial controls over financial reporting

A company’s internal financial controls over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial controls over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent limitations of internal financial controls over financial reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial controls over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial control system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2024, based on the internal controls over financial reporting criteria established by the Company considering the essential components of internal controls stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by Institute of Chartered Accountants of India.

Note: 2 Basis Of Preparation & Significant Accounting Policies

2.1 Basis of Preparation And Presentation

- i. **Basis of Preparation:** The standalone financial statements ('financial statements') of the Company have been prepared in accordance with the Indian Accounting Standards (Ind AS) notified under Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and presentation requirements of Division II of Schedule III to the Companies Act, 2013, (Ind AS compliant Schedule III), as applicable to the standalone financial statements. The standalone financial statements have been prepared on a going concern basis in accordance with accounting principles generally accepted in India.
- ii. **Basis of measurement:** These financial statements are prepared under the historical cost convention except for the following assets and liabilities which have been measured at fair value:
 - Certain financial assets and liabilities (including derivative instruments) measured at fair value (refer accounting policy regarding financial instruments),
 - Defined benefit plans - plan assets measured at fair value

The financial statements are presented in Indian Rupees, except when otherwise indicated.

- iii. **Measurement of fair values** Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Normally at initial recognition, the transaction price is the best evidence of fair value. However, when the company determines that transaction price does not represent the fair value, it uses inter-alia valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs. All financial assets and financial liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy. This categorisation is based on the lowest level input that is significant to the fair value measurement as a whole: Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date; Level 2 inputs are inputs, other than quoted prices

included within Level 1, that are observable for the asset or liability, either directly or indirectly; and Level 3 inputs are unobservable inputs for the asset or liability. Financial assets and financial liabilities that are recognised at fair value on a recurring basis, the company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation at the end of each reporting period.

- iv. **Classification of Assets and Liabilities into Current/Non-Current:** The Company has ascertained its operating cycle as twelve months for the purpose of Current/ Non-Current classification of its Assets and Liabilities. For the purpose of Balance Sheet, an asset is classified as current if:
 - a. It is expected to be realised, or is intended to be sold or consumed, in the normal operating cycle; or
 - b. It is held primarily for the purpose of trading; or
 - c. It is expected to realise the asset within twelve months after the reporting period; or
 - d. The asset is a cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period. All other assets are classified as non-current.

Similarly, a liability is classified as current if:

- a. It is expected to be settled in the normal operating cycle; or
- b. It is held primarily for the purpose of trading; or
- c. It is due to be settled within twelve months after the reporting period; or
- d. The Company does not have an unconditional right to defer the settlement of the liability for at least twelve months after the reporting period. Terms of a liability that could result in its settlement by the issue of equity instruments at the option of the counterparty does not affect this classification. All other liabilities are classified as non-current.

2.2 Summary of Significant Accounting Policies

a) Property, Plant and Equipment (PPE)

- i. Property, plant and equipment held for use in the production or supply of goods or services, or for administrative purposes, are stated in the balance sheet at cost less accumulated depreciation, accumulated impairment loss, government grant received in respect of Property, plant and equipment. Cost includes all expenses directly incidental to acquisition, bringing the asset to the location and installation including site restoration up to the time when the asset is ready for intended use. Such Costs also include Borrowing Cost if the recognition criteria are met.
- ii. The residual values, useful lives and method of depreciation of property, plant and equipment is

reviewed at each financial year end and adjusted prospectively.

iii. Depreciation Property on Property, Plant & Equipment is provided on Straight Line Method based on estimated useful life of the assets which is same as envisaged in schedule II of the Companies Act, 2013. The residual values, useful lives and method of depreciation of property, plant and equipment is reviewed at each financial year end and adjusted prospectively, if appropriate.

iv. De-recognition An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

b) Intangible assets

i. Intangible assets which is purchased are initially measured at cost. Subsequently, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses, if any

ii. An item of Intangible asset is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the Statement of Profit and Loss when the asset is derecognised.

iii. Amortisation Finite-life intangible assets are amortised on a straight-line basis over the period of their expected useful lives. Estimated useful life of computer software is estimated for 3 year

c) Impairment of non financial assets

At the end of each reporting period, the Company determines whether there is any indication that its assets (property, plant and equipment, intangible assets carried at cost) have suffered an impairment loss with reference to their carrying amounts. If any indication of impairment exists, the recoverable amount (i.e. higher of the fair value less costs of disposal and value in use) of such assets is estimated and impairment is recognised, if the carrying amount exceeds the recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money

d) Financial Assets

a) Initial Recognition and Measurement

All financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Financial assets are classified, at initial recognition, as financial assets measured at fair value or as financial assets measured at amortized cost.

b) Subsequent Measurement For purpose of subsequent measurement financial assets are classified in two broad categories:-

- I. Financial assets at amortized cost
- II. Financial Assets at fair value through profit or loss
- III. Financial Assets at fair value through other comprehensive income (OCI)

A financial asset that meets the following two conditions is measured at amortized cost:

I. Business Model Test: The objective of the company's business model is to hold the financial asset to collect the contractual cash flows

II. Cash flow characteristics test: The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payment of principal and interest on the principal amount outstanding. A financial asset that meets the following two conditions is measured at fair value through OCI:-

- Business Model Test: The financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets.

- Cash flow characteristics test: The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payment of principal and interest on the principal amount outstanding. All equity investments are measured at fair value in the balance sheet, with value changes recognized in the statement of profit and loss, except for those equity investments for which the entity has elected irrevocable option to present value changes in OCI All other financial assets are measured at fair value through profit and loss Where assets are measured at fair value through profit of loss, gains and losses are recognized in the statement of profit and loss Where assets are measured at fair value through other comprehensive income, gains and losses are recognized in other comprehensive income

III. Impairment of financial assets The Company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk and if so, assess the need to provide for the same in the Statement of Profit and Loss.

IV. Derecognition of financial assets A financial asset is derecognised only when Company has transferred the rights to receive cash flows from the financial asset. Where the entity has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised.

e) Financial Liabilities

i. Initial recognition and measurement Financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument. Financial liabilities are initially measured at the amortised cost unless at initial recognition, they are classified as fair value through profit and In case of trade payables, they are initially recognised at fair value and subsequently, these liabilities are held at amortised cost, using the effective interest method.

ii. Subsequent measurement Financial liabilities are subsequently measured at amortised cost using the EIR method. Financial liabilities carried at fair value through profit or loss are measured at fair value with all changes in fair value recognised in the Statement of Profit and Loss.

iii. Derecognition A financial liability is derecognised when the obligation specified in the contract is discharged, cancelled or expires.

f) Leases Assets taken on lease The Company mainly has lease arrangements for land for Factory and building for offices. The Company assesses whether a contract is or contains a lease, at inception of a contract. The assessment involves the exercise of judgement about whether (i) the contract involves the use of an identified asset, (ii) the Company has substantially all of the economic benefits from the use of the asset through the period of the lease, and (iii) the Company has the right to direct the use of the asset. The Company recognises a right-of-use asset ("ROU") and a corresponding lease liability at the lease commencement date. The ROU asset is initially recognised at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses and adjusted for certain re-measurements of the lease liability.. The ROU asset is depreciated using the straightline method from the commencement date to the earlier of, the end of the useful life of the ROU asset or the end of the lease term. The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the incremental borrowing rate specific to the Company. Lease payments included in the measurement of the lease liability include fixed payments, variable lease payments that known at the commencement date. Variable lease payments that do not depend on an rate are not included in the measurement the lease liability and the ROU asset. The related payments are recognised as an expense in the period in which the event or condition that triggers those payments occurs and are included in the line "other expenses" in the statement of profit or loss. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made and remeasured (with a corresponding adjustment to the related ROU asset) when there is a change in future lease payments in case of renegotiation, changes of an rate or in case of reassessment of options. Short-term leases and leases of low-value assets: The Company has elected not to recognize ROU assets and lease liabilities for short term leases as well as low value assets and recognizes the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

g) Inventory Inventories are valued at the lower of cost and net realisable value. **Cost of Raw material & Stock in Trade:** Inventory items that are not interchangeable, specific cost are attributed for specific individual items of inventory. Inventory items that are interchangeable, cost are attributed to these inventory

items on FIFO Basis. **Cost of Finished goods and WIP:** Cost of finished goods and work in progress include weighted average costs of raw materials, conversion costs and other costs incurred in bringing the inventories to their present location and condition. The net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and estimated costs necessary to make the sale.

h) Income Tax Provision for tax is made for the current accounting period (reporting period) on the basis of the taxable profits computed in accordance with the Income-tax Act, 1961 and the Income Computation and Disclosure Standards prescribed therein. Deferred tax is recognised in respect of temporary differences between the carrying amount of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. A deferred tax liability is recognised based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using tax rates enacted, or substantively enacted, by the end of the reporting period. Deferred tax assets are recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised. Deferred tax assets are reviewed at each reporting date and reduced to the extent that it is no longer probable that the related tax benefit will be realised. Current tax assets and current tax liabilities are offset when there is a legally enforceable right to set off the recognised amounts. Deferred tax assets and deferred tax liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities; and the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority.

i. Provisions and contingent liabilities The Company creates a provision when there is present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made. Disputed liabilities and claims against the company including claims raised by fiscal authorities (e.g. Sales Tax, Income Tax, Excise etc.) pending in appeal / court for which no reliable estimate can be made and or involves uncertainty of the outcome of the amount of the obligation or which are remotely poised for crystallization are not provided for in accounts but disclosed in notes to accounts

j) Foreign Currency Translation

i. The financial statements are presented in Indian rupee (INR), which is Company's functional and presentation currency.

ii. On initial recognition, all foreign currency transactions are recorded at foreign exchange rate on the date of transaction. Gain / Loss arising on account of rise or fall in foreign currencies vis-à-vis functional currency between the date of transaction and that of payment is charged to Statement of Profit & Loss.

iii. Monetary Assets in foreign currencies are translated into functional currency at the exchange rate ruling at the Reporting Date and the resultant gain or loss, is accounted for in the Statement of Profit & Loss.

k) Dividend to equity holders of the Company The Company recognises a liability to make cash distributions to equity holders of the Company when the distribution is authorised and the distribution is no longer at the discretion of the Company. Final dividends on shares are recorded as a liability on the date of approval by the shareholders and interim dividends are recorded as a liability on the date of declaration by the Company's Board of Directors.

l) Revenue Recognition Revenue towards satisfaction of a performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to that performance obligation.

i. Sale of goods The company's revenue from contract with customer is mainly from sale of aluminium products. The Company derives revenue from Sale of Goods and revenue is recognized upon transfer of control of promised goods to customers in an amount that reflects the consideration the Company expects to receive in exchange for those goods. To recognize revenues, the Company applies the following five step approach: (1) identify the contract with a customer, (2) identify the performance obligations in the contract, (3) determine the transaction price, (4) allocate the transaction price to the performance obligations in the contract, and (5) recognize revenues when a performance obligation is satisfied. The Company recognises revenue at point in time. Any change in scope or price is considered as a contract modification. The Company accounts for variable considerations like, volume discounts, rebates and pricing incentives to customers as reduction of revenue on a systematic and rational basis.

ii. Interest Income Interest income is accrued on a time proportion basis, by reference to the principle outstanding and the effective interest rate applicable.

iii. The materials returned/rejected are accounted for in the year of return/rejection.

iv. Export incentives & other miscellaneous incomes are recognised on accrual basis. Export benefits are accounted for in the year of exports based on eligibility and when there is no uncertainty in receiving the same. All other income are recognised on accrual basis.

m) Employee benefits

i. Short-term employee benefits All employee benefits payable wholly within twelve months of rendering the service are classified as short term employee benefits. Short term employee benefits such as salaries, allowances, performance incentives, etc., are recognized as an expense at the undiscounted amount in the Statement of Profit and Loss of the year in which the employee renders the related service.

ii. Post Employment Benefits Defined contribution plans Payments made to a defined contribution plan such as Company's contribution to provident fund, employee state insurance and other funds are determined under the statute and charged to the Statement of Profit and Loss in the period of incurrence when the services are rendered by the employees.

iii. Defined Benefits Plans The Company makes annual contributions to gratuity funds administered by the L.I.C. & SBI Life Insurance. The Gratuity plan provides for lump sum payment to vested employees on retirement, death or termination of employment of an amount based on the respective employee's last drawn salary and tenure of employment. The Company accounts for the net present value of its obligations for gratuity benefits, based on an independent actuarial valuation, determined on the basis of the projected unit credit method, carried out as at the Balance Sheet date. The obligation determined as aforesaid less the fair value of the plan assets is reported as a liability or assets as of the reporting date. Actuarial gains and losses are recognised immediately in the Other Comprehensive Income and reflected in retained earnings and will not be reclassified to the Statement of Profit and Loss.

n) Borrowing Cost Borrowing cost that are directly attributable to the acquisition, construction, or production of a qualifying asset are capitalized as a part of the cost of such asset till such time the asset is ready for its intended use or sale. Borrowing cost consist of interest and other costs that an entity incurs in connection with the borrowing of funds. A qualifying asset is an asset that necessarily requires a substantial period of time to get ready for its intended use or sale. All other borrowing cost are recognized as expense in the period in which they are incurred.

o) Earning Per Share Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. Earnings considered in ascertaining the Company's earnings per share is the net profit for the period. The weighted average number of equity shares outstanding during the period and all periods presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares, that have changed the number of equity shares outstanding, without a corresponding change in resources. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of share outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

p) Earning Per Share Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. Earnings considered in ascertaining the Company's earnings per share is the net profit for the period. The weighted average number of equity shares outstanding during the period and all periods presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares, that have changed the number of equity shares outstanding, without a corresponding change in resources. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of share outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

q) Segment reporting The activity of the company comprises of only manufacturing and trading of aluminium products hence there is no other reportable operating segment as required by Ind AS -108.

r) Cash and cash equivalents Cash and cash equivalents are short-term (three months or less from the date of acquisition), highly liquid investments that are readily convertible into cash and which are subject to an insignificant risk of changes in value.

s) Government Grant Government Grants are recognised where there is reasonable assurance that the grant will be

received and all the attached conditions will be complied with. When the grant relates to revenue, it is recognised in the statement of profit and loss on a systematic basis over the periods to which they relate. When the grant is related to assets, it is deducted from the carrying amount of respective asset.

*Earning available for Debt Service: Profit after taxes + Depreciation and Amortization Expenses + Finance Costs + Loss on sale of PPE

Reason for change above 25 %:

- Decrease in short term borrowings in comparison to Trade receivable and inventories has resulted in increased current ratio.
- Increase in networth and decreased borrowings has led to lower debt equity ratio.
- Change is due to comparatively lower finance cost and principal amounts for current year.
- Change is because of reduced profitability for current year.
- Return on investments increased with increase in yields of the investment portfolio.

37 As per Indian Accounting Standard 19 "Employee benefits", the disclosures as defined in the Accounting Standard are given below :

Employee benefit plans

Defined contribution plans

The Company makes Provident Fund and Employees State Insurance Scheme contributions to defined contribution plans for qualifying employees. Under the Schemes, the Company is required to contribute a specified percentage of the payroll costs to fund the benefits. The Company recognised ₹. 65.63/- lacs (Year ended 31 March, 2023 ₹. 60.83/- lacs) for Provident Fund contributions and ₹. 4.60 lacs (Year ended 31 March, 2023 ₹. 8.43/- lacs) for Employees State Insurance Scheme contributions in the Statement of Profit and Loss. The contributions payable to these plans by the Company are at rates specified in the rules of the schemes.

Defined benefit plans

The employees' gratuity fund scheme managed by Maan Aluminium Limited Employees' Trust through insurer (Life Insurance Corporation of India and/or SBI Life Insurance Company) is a defined benefit plan. The present value of obligation is determined based on actuarial valuation using the Projected Unit Credit Method, which recognises each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation. The obligation for leave encashment is recognised in the same manner as gratuity.

Below is detail of actuarial valuation associated with the captioned Plans in terms of Indian Accounting Standard (Ind AS) 19

37.11 : Sensitivity Analysis: Significant actuarial assumptions for the determination of the defined benefit obligation are discount rate, expected salary increase and mortality. The sensitivity analysis below have been determined based on reasonably possible changes of the assumptions occurring at the end of the reporting period, while holding all other assumptions constant. Please note that the sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated. The results of sensitivity analysis are given below:

Particulars (amount in ₹. lacs)	GRATUITY	LEAVE ENCASHMENT
Period	31-Mar-24	31-Mar-24

39 Fair Value hierarchy

The fair value of financial instruments have been classified into three categories depending on the inputs used in the valuation technique. The hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and lowest priority to unobservable inputs (Level 3 measurements).

The categories used are as follows:

Level 1: Quoted prices for identical instruments in an active market;

Level 2: Directly or indirectly observable market inputs, other than Level 1 inputs; and

Level 3: Inputs which are not based on observable market data.

The following tables provides the fair value measurement hierarchy of the Company's financial assets & financial Liabilities

40 Financial risk management objectives and policies

The risk management policies of the Company are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Management has overall responsibility for the establishment and oversight of the Company's risk management framework. In performing its operating, investing and financing activities, the Company is exposed to the Credit risk, Liquidity risk and Market risk.

a) Credit risk

Credit risk is the risk of financial loss to the company if a customer or counter-party fails to meet its contractual obligations.

Trade Receivables

Credit risk refers to the risk of default on its obligations by a counterparty to the Company resulting in a financial loss to the Company. The Company is exposed to credit risk from trade receivables. Credit risk from trade receivables is managed through the Company's policies, procedures and controls relating to customer credit risk management by establishing credit limits, credit approvals and monitoring creditworthiness of the customers to which the Company extends credit in the normal course of business. Outstanding customer receivables are regularly monitored. The Company has no concentration of credit risk as the customer base is widely distributed.

Other financial assets

The company's maximum exposure to credit risk as at 31 March 2024 and 31 March 2023 is the carrying value of each class of financial assets.

b) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation. It maintains adequate sources of financing from related parties at an optimised cost.

The Company's maximum exposure to liquidity risk for the components of the balance sheet at 31 March 2024 and 31 March 2023 is the carrying amounts. The liquidity risk is managed on the basis of expected maturity dates of the financial liabilities. The average credit period taken to settle trade payables is about 0 to 30 days. The carrying amounts are assumed to be a reasonable approximation of fair value. The following table analyses financial liabilities by remaining contractual maturities:

Particulars	On demand	Less than 12 Months	>1 years	Total
As at 31 March 2024				
Borrowings	3,089.24	60.12	42.93	3,192.28
Trade Payables	-	2,113.36	14.91	2,128.27
Lease liability	-	19.40	48.63	68.03
Other Financial Liabilities	13.59	180.63	-	194.22
	3,102.83	2,373.51	106.48	5,582.81
As at 31 March 2023				
Borrowings	5,422.52	-	103.05	5,525.57
Trade Payables	-	3,027.56	-	3,027.56
Lease liability	-	25.29	59.96	85.26
Other Financial Liabilities	15.58	118.00	-	133.58
	5,438.10	3,170.85	163.01	8,771.96

c) Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises of three types of risks: interest rate risk, currency rate risk and price risk. Financial instruments affected by market risk includes borrowings, trade receivables and other financial assets & liabilities. The Company is exposed to Interest rate risk, currency risk and price risk.

i) Interest rate risk

The interest rate risk exposure is mainly from changes in floating interest rates. The Management is responsible for the monitoring of the Company's interest rate position. Various variables are considered by the Management in structuring the Company's borrowings to achieve a reasonable, competitive, cost of funding. The following table analyse the breakdown of the financial assets and liabilities by type of interest rate:

Particulars	As at 31-March-2024	As at 31-March-2023
-------------	------------------------	------------------------

Financial Liabilities

Floating Interest bearing Liabilities

Borrowings	3,089.24	5,364.41
------------	----------	----------

The following table demonstrates the sensitivity to a reasonably possible change in floating interest rates on that portion of borrowings affected. With all other variables held constant, the Company's profit before tax is affected through the impact on floating rate borrowings, as follows:

Particulars	For the year ended 31-March-2024	For the year ended 31-March-2023
Increase in basis points	50.00	50.00
Effect on profit before tax	-15.45	-26.82
Decrease in basis points	50.00	50.00
Effect on profit before tax	15.45	26.82

ii) Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Company has foreign currency trade payables and receivables and is therefore exposed to foreign exchange risk. The Company mitigates the foreign exchange risk by setting appropriate exposure limits, periodic monitoring of the exposures and by natural hedging by creating reverse position by way of import in case of having trade receivables in foreign currency and vice versa also company mitigate currency risk by derivative financial instruments like foreign exchange forward contracts. The exchange rates have been volatile in the recent years and may continue to be volatile in the future. Hence the operating results and financials of the Company may be impacted due to volatility of the rupee against foreign currencies.

Exposure to currency risk (Exposure in different currencies converted to functional currency i.e. INR) The currency profile of financial assets and financial liabilities as at March 31, 2024 and March 31, 2023 are as below:

Particulars	For the year ended 31-March-2024	For the year ended 31-March-2023
Financial Assets		
Trade Receivables	4,010.87	5,942.31
Cash and cash equivalents	1.45	4.87

Net exposure	2,519.58	2,166.64
Forward Contract Exposure	1,875.91	2,959.81

Sensitivity analysis

A reasonably possible 5% strengthening (weakening) of the Indian Rupee against USD at 31 March 2024 and 31 March 2023 would have affected the measurement of financial instruments denominated in USD and affected profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant and ignores any impact of forecast sales and purchases.

Movement at 5% fluctuation	31-March-2024	31-March-2023
Profit	32.18	-39.66
Loss	-32.18	39.66

iii) Price risk

The Company has deployed its funds into various financial instruments primarily in units of debt based mutual funds and treasury bills, etc. The Company is exposed to price risk on such investments, which arises on account of movement in interest rates, liquidity, credit quality of underlying securities, etc.

The value of investment in these mutual fund schemes is reflected through Net Asset Value (NAV) declared by the Asset Management Company on daily basis. While w.r.t. T-bills, the price is determined by the banks and financial institutions. They place bids on the auction platform. Based on bids placed on the platform, the RBI determines the price of the securities. The Company has not performed a sensitivity analysis on these mutual funds/treasury bills, as in Management's opinion, such analysis would not display a correct picture.

41 Capital management

Equity share capital and other equity are considered for the purpose of Company's capital management.

The Company manages its capital so as to safeguard its ability to continue as a going concern and to optimise returns to shareholders. The capital structure of the company is based on management's judgement of its strategic and day-to-day needs with a focus on total equity so as to maintain investor, creditors and market confidence.

The management and the board of directors monitors the return on capital. The Company may take appropriate steps in order to maintain, or if necessary adjust, its capital structure.

42 Earning per share

The following reflects the income and share data used in the basic and diluted EPS computations:

Particulars	For the year ended 31-March-2024	For the year ended 31-March-2023
