Chairman's Message

Dear Shareholders,

I am pleased to address you on behalf of our Board of Directors and the entire team at Maan Aluminium Limited, as we present our Annual Report for the fiscal year 2024-25.

As a leading player in the aluminium extrusion industry, we take pride in our continued success in delivering high-quality products to meet the evolving needs of a wide range of sectors, including defence, electric vehicle, aerospace, construction, and industrial applications. Despite the global challenges posed by market volatility, supply chain disruptions, Anti-dumping investigation by US department of commerce and increasing costs, we have remained committed to our strategic vision of sustainable growth, innovation, and operational excellence.

Financial Performance and Growth

We now have installed capacity of 24000 MTs p.a. which is 140 % increase from last year, Despite the fluctuating market conditions, we have managed to post revenue of INR 81,016.62 lacs compared to the previous year FY 2023-24 at INR 95,302.77 lacs. We have seen a significant drop in profitability our PBT stands at INR 2164.87 lacs for FY 2024-25 compared to the previous year figure of INR 4397.27 lacs. Even in these challenging times we have maintained healthy cash flows and secured BBB+ ratings for our debts by external rating agency ICRA.

Strategic Initiatives and Innovation

We continue to invest in state-of-the-art manufacturing facility at Pithampur, M.P. and this year your company has added two more manufacturing facility, one in Pithampur and another in Dewas, M.P which will be used for advance value addition in extruded products.

Your company has added new extrusion press (Italian make) with the commitment for using cutting-edge technology, coupled with a focus on research and development, enabling us to produce high-strength, lightweight, and energy-efficient aluminium products to target upcoming sectors like Defence, Automobile and Aerospace. Our dedication to quality and sustainability is reflected in our customer satisfaction and our adherence to stringent environmental norms, which are integral to our business philosophy.

Outlook for the Future

Looking ahead, the global demand for aluminium is expected to grow steadily, driven by its lightweight, recyclable, and durable nature. Our strategy remains focused on scaling our operations, diversifying our product offerings, and capitalizing on emerging opportunities in the aluminium extrusion business. As we move forward, we will continue to focus on enhancing our manufacturing capabilities, strengthening our brand, and further expanding our market reach both domestically and internationally.

In conclusion, I would like to extend my sincere thanks to all our stakeholders for their unwavering support and confidence in our leadership. Together, we will continue to forge a path of sustained growth, innovation, and success.

Thank you for your continued trust and partnership.

Warm regards,

Ravinder Nath Jain

Management Discussion and Analysis

Economic Scenario and Global Economic Outlook

The global economy should continue to grow at a reasonable, but not particularly exciting pace in 2025. But it is a world marked by significant uncertainty. The risks are predominantly on the downside, amid potential changes in US trade policy, a challenging geopolitical backdrop, political uncertainty and rising government bond yields. The world is not without plausible upside scenarios though, particularly if the US president is more cautious in his less-business-friendly policies.

The global economy is projected to remain resilient despite significant challenges, according to the OECD's latest Economic Outlook. The Outlook projects global GDP growth of 3.3% in 2025, up from 3.2% in 2024, and 3.3% in 2026.

Inflation in the OECD is expected to ease further, from 5.4% in 2024 to 3.8% in 2025 and 3.0% in 2026, supported by the still restrictive stance of monetary policy in most countries. Headline inflation has already returned to central bank targets in nearly half of the advanced economies and close to 60% of emerging market economies.

Labour markets have gradually eased, yet unemployment remains low by historical standards. Strong nominal wage gains and continued disinflation have bolstered real household incomes. However, private consumption growth remains subdued in most countries, reflecting weak consumer confidence. Global trade volumes are recovering, with a projected increase of 3.6% in 2024.

Growth prospects vary significantly across regions. GDP growth in the United States is projected to be 2.8% in 2025, before slowing to 2.4% in 2026. In the euro area, the recovery in real household incomes, tight labour markets and reductions in policy interest rates continue to drive growth. Euro area GDP growth is projected at 1.3% in 2025 and 1.5% in 2026. Growth in Japan is projected to expand by 1.5% in 2025 but then decline to 0.6% in 2026. China is expected to continue to slow, with GDP growth of 4.7% in 2025 and 4.4% in 2026.

Indian Economy

India is poised to lead the global economy once again, with the International Monetary Fund (IMF) projecting it to remain the **fastest growing major economy** over the next two years. According to the April 2025 edition of the IMF's World Economic Outlook, India's economy is expected to grow by **6.2 per cent in 2025 and 6.3 per cent in 2026**, maintaining a solid lead over global and regional peers.

The April 2025 edition of the WEO shows a downward revision in the 2025 forecast compared to the January 2025 update, reflecting the impact of heightened global trade tensions and growing uncertainty. Despite this slight moderation, the overall outlook remains strong. This consistency signals not only the strength of India's macroeconomic fundamentals but also its capacity to sustain momentum in a complex international environment. As the IMF reaffirms India's economic resilience, the country's role as a key driver of global growth continues to gain prominence.

India is projected to remain the fastest-growing large economy for 2025 and 2026, reaffirming its dominance in the global economic landscape. The country's economy is expected to expand by 6.2 per cent in 2025 and 6.3 per cent in 2026, outpacing many of its global counterparts. In contrast, the IMF projects global economic growth to be much lower, at 2.8 per cent in 2025 and 3.0 per cent in 2026, highlighting India's exceptional outperformance.

Industry Structure & Development

Aluminium is a metal of significant strategic importance to India, critical to almost all sectors of significance to modern life and essential to build a sustainable tomorrow. By virtue of its unusual properties like high strength-to-weight ratio, exceptional design flexibility, superior thermal & electrical properties, 100% recyclability over and over again, Aluminium's demand in space exploration, aviation, electric vehicles, renewable energy production, electricity transmission, construction, consumer goods, and more, is only slated to increase.

India is a leading player in the global Aluminium industry with the second largest Aluminium production capacity of about 4 million tonnes per annum (MTPA)

India's Aluminium demand is estimated to double again by the year 2026 with current resilient GDP growth rate driven by increasing urbanization and push for boosting domestic infrastructure, automotive, aviation, defence, and power sectors.

Opportunities and Threats

The aluminium business continues to be affected to a large extent by the volatility in the aluminium raw material prices, foreign exchange fluctuations and low quality aluminium products being dumped by neighbouring countries.

Business Performance

During FY 2024-2025, the Company has achieved production of 7653.16 MT as compared to 8456.81 MT during the previous year. Considering the latest installed capacity of 24,000 MT p.a., we have spare capacity to increase production and sales level. Accordingly your company has geared-up marketing activities and production, so as to achieve Production and sale of 24,000 MT in coming years.

Aluminium Market Analysis

- **Market Growth and Size:** The market is witnessing moderate growth on account of the increasing adoption of aluminium due to its lightweight properties, along with the rising demand for recyclable materials.
- **Technological Advancements:** Innovations in aluminium production, recycling, and applications assist in improving efficiency, reducing costs, and expanding the range of industry applications.
- **Industry Applications:** Aluminium finds diverse applications across industries, including construction, automotive, aerospace, and packaging.
- **Geographical Trends:** Asia Pacific leads the market, driven by the rising number of infrastructure projects. However, North America is emerging as a fast-growing market due to the increasing adoption of aluminum in aircraft manufacturing.
- **Competitive Landscape:** Key players are investing in research and development (R&D) activities to develop new alloys and enhance manufacturing processes.
- **Challenges and Opportunities:** While the market faces challenges, such as volatility in raw material prices, it also encounters opportunities in the growing focus on sustainable practices.
- **Future Outlook:** The future of the aluminium market looks promising, with the rising need to reduce carbon emissions. In addition, the introduction of various recycling technologies is expected to positively influence the aluminium market forecast.

Prospects

Rise in infrastructure development is expected to drive growth in the aluminium sector.

Demand for aluminium is expected to pick up as the scenario improves for user industries like power, infrastructure and transportation.

The Government of India's "National Mineral Policy" is expected to bring more transparency, better regulation and enforcement, balanced socio-economic growth along with sustainable mining practices in the aluminium sector.

Domestic demand is likely to remain robust driven by construction and packaging.

The increasing share of imports of aluminium products, including scrap, will continue to be a major concern for domestic aluminum producers. Over the last few years, the domestic rolled products industry has been witnessing an increase in dumping of imports especially from China, at unfair prices leading to the pricing pressure.

The adoption of strong, lightweight and formable aluminium sheets in vehicle parts and structures is driving growth in the automotive body sheet segment. This market is expected to record growth, despite some recent softening in European and Chinese demand.

The Indian government has plans to invest over US\$ 1 billion in its "Make in India" initiative. The aluminium industry will benefit from this as there is great demand to build new production facilities.

Risk and Concern

The Company has well defined structure which enable and empower management to identify, assess and leverage business opportunities and manage risk exposure in the organization effectively.

As per Risk Management framework and procedures, management treat various category of risks and take appropriate actions for its mitigation. For example, for higher priority risks, the Company has developed and implemented specific risk management plans that supports management in strategic decisions and funding considerations, if any. Lower priority risks are also monitored as per plan. Company has the process of communication, consultation, monitoring and periodical review of the risks and effectiveness of the mitigation plan.

The aluminium (metals) sector has provided investors healthy returns in certain time periods during the past decade but overall, the performance of the sector has been underwhelming.

Supply of primary aluminum is in excess as India is one of the largest producers of primary aluminium. However, due to limited scope of value addition within the country, primary aluminium producers export large quantities of primary aluminium products and companies import a sizeable quantity of downstream products.

Aluminum consumption in India at 3.10 kg per capita is much below the global average of 12 kg per capita. Demand for the metal is expected to pick up as the scenario improves for user industries, like power, infrastructure and transportation.

Most domestic players operate integrated plants. Bargaining power is limited in case of power purchase, as Government is the only supplier. However, increasing usage of captive power plants (CPP) will help to rationalize power costs to a certain extent in the long-term.

The company also has an internal risk committee that reviews the risk management process on a periodic basis.

QUALITY CONTROL

Your Company continues to focus on sustained quality control and has build a strong brand image among competition. The Company's manufacturing facility is accredited with the prestigious ISO-9001:2015, 14001:2015, IATF 8 CE Marking certification endorsing its strong quality systems. Your Company continues to focus on sustained quality control and has build a strong Brand image among competition.

Internal Control Systems and Their Adequacy

The Company is following a proper and adequate system of internal controls in respect of all its activities including safeguarding and protecting its assets against loss from unauthorized use of disposition. Further, all transactions entered into by the Company are duly authorized and recorded correctly. The Internal Auditors are submitting reports to the Company on a Quarterly basis.

The internal audit process is designed to review the adequacy of internal control checks and covers all significant areas of the company's global operations.

The company has an Audit Committee of the Board of Directors, the details of which have been provided in the corporate governance report.

Review of Company's Operation

During the year under review, earnings before interest, tax and depreciation (EBITDA) of the Company recorded Rs. 3041.98 Lakhs as compared to Rs. 5233.77 Lakhs in previous year.

Due to reduction in value added product orders and exports in current year EBITDA has declined however your company is geared up and looking forward to have good long term prospects.

The demand for aluminium may continue to be driven further by the pick-up in the infrastructure projects viz. bridges, roads, ports, metro rails and low budget housing segment, bringing opportunities for growth in this sector. The long-term outlook for aluminium is expected to be positive.

Summary of Key Financial Metrics and Key Ratio

The Summary of Key Financial metrics and Key Ratio has been mentioned in the Note No. 35 of Audited Financial.

Explanatory Statement

[Pursuant to Section 102 of the Companies Act, 2013 (“Act”)]

As required by Section 102 of the Act, the following Explanatory Statement sets out all material facts relating to the business mentioned under Item Nos. 4 & 5 of the accompanying Notice dated 12th August, 2025.

Item No. 4: Ratification of Remuneration of Cost Auditors

In accordance with the provisions of Section 148 of the Act read with Rule 14 of the Companies (Audit and Auditors) Rules, 2014, the Company is required to appoint a Cost Auditor to conduct audit of Cost Records of the Company.

The Board, on the recommendation of the Audit Committee has approved the appointment of Mr. Vivek Bothra, Cost Accountant (Membership No. 16308), Cost Accountants, as the Cost Auditors of the Company for the financial year ending March 31, 2026, at a remuneration of Rs. 0.90/- Lacs (Rupees Ninty Thousand only) plus applicable taxes and reimbursement of actual out-of-pocket expenses, if any. The remuneration payable to the Cost Auditors is required to be ratified by the members of the Company.

Accordingly, the consent of the members is sought for passing an Ordinary Resolution as set out at Item No. 4 of the Notice for ratification of the remuneration payable to the Cost Auditors for the financial year ending March 31, 2026.

None of the Directors, Key Managerial Personnel of the Company and their relatives are, in any way, concerned or interested, financially or otherwise, in the resolution at Item No. 4 of the Notice.

The Board recommends the passing of an Ordinary Resolution as set out at Item No. 4 of the accompanying notice.

Item No. 5 of the Notice:

In terms of Regulation 24A of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 (‘SEBI Listing Regulations’) and other applicable provisions of the Companies Act, 2013, each as amended, the Company is required to appoint Secretarial Auditors for a period of 5 years commencing from FY 2025-26, to conduct the Secretarial Audit of the Company in terms of Section 204 and other applicable provisions of the Companies Act, 2013 read with Regulation 24A and other applicable provisions of the SEBI Listing Regulations read with applicable SEBI Circulars.

For identification of Secretarial Auditor, the Management had initiated the process and had detailed

interactions with certain eligible audit firms and assessed them against a defined eligibility and evaluation criteria.

The following criteria inter alia were considered for evaluation of Practicing Company Secretary firms capable of conducting audit of Maan Aluminium Ltd.:

- Background of the firm, their experience and past associations in handling secretarial audit of listed companies;
- Competence of the leadership and the audit team in

conducting secretarial audit of the Company in the past as well as of other listed companies; and

- Ability of the firm to understand the business of the Company and identify compliance of major laws and regulations applicable to the Company.

As part of the assessment, the Management also considered the eligibility of Ms. Anita Aswal. Ms. Anita Aswal, Noida, is a distinguished firm of Practicing Company Secretaries. Peer Reviewed and Quality Reviewed by the Institute of Company Secretaries of India, the firm specializes in corporate law, SEBI regulations, corporate governance, and compliance.

The Board, at its meeting held on May 27, 2025, considered the recommendation of the Audit Committee with respect to the appointment of Ms. Anita Aswal as the Secretarial Auditors. After due consideration and review, the Board recommends for approval of the Members the appointment of Ms. Anita Aswal as the Secretarial Auditors of the Company for a period of five years commencing from the conclusion of the ensuing 22nd Annual General Meeting, through the conclusion of 27th Annual General Meeting of the Company, for conducting secretarial audit of the Company for the period beginning from FY 2025-26 through the FY 2029-30.

Ms. Anita Aswal has provided its consent to be appointed as Secretarial Auditors and has confirmed that, if appointed, its appointment, will be in accordance with Regulation 24A of the SEBI Listing Regulations read with SEBI Circular No. SEBI/HO/CFD/CFD-PoD-2/CIR/P/2024/185 dated December 31, 2024 and other relevant applicable SEBI Circulars issued in this regard.

The proposed remuneration to be paid to Ms. Anita Aswal, shall be mutually agreed between the Board, and the Secretarial Auditors, from time to time. The Company will seek shareholder approval in case there is a material change in the remuneration of secretarial auditor owing to significant enhancement in scope of work.

None of the Director(s) or Key Managerial Personnel of the Company or their respective relatives are concerned or interested in the Resolution mentioned at Item No. 5 of the Notice.

The Board recommends the Resolution set forth in Item No. 5 for the approval of the Members.

Review Of Business And Operations And State Of Your Company's Affairs

MAAN has built a sustainable foundation to accelerate its growth. Its customer-centric products; transparency in operations; relentless focus on customer convenience; and investment in technology has helped it build a family of lot of happy customers.

The overall business environment remained muted with demand slackening in almost all sectors. The Aluminium Sector also went through extreme volatility owing to the fluctuations in the Price of Primary Products along with Anti-Dumping investigations initiated by US Department of commerce in India along with 12 more countries. Your Company overcame the challenges posed by all these and performed well during the FY 2024-25.

This was achieved through leveraging the export opportunities bought by the growing trend of export and offering quality service. With a resolution to provide best-in-class product at the lowest cost, your Company delivered strong growth over the previous year.

The Company reported earnings results for the fourth quarter and full year ended March 31, 2025. For the fourth quarter, the company reported revenue from operations as INR 24586 lakhs compared to INR 23740 lakhs a year ago. Total income as INR 24723 lakhs compared to INR 23990 lakhs a year ago. Note

Independent Directors were paid sitting fees & commission. Other Non-Executive Directors were not paid any remuneration during the financial year. Hence this is not applicable for Non-Executive Directors.

The ratio of remuneration of each Director and KMP to the median remuneration is based on the CTC of the remuneration for the year 2024-25 in their respective capacity as such Director or KMP. Percentage increase/(decrease) in remuneration is as follows -

Managing Director 15%;

COO(%) : 90%;

CFO and Company Secretary 31%

(# Please note Mr. Naveen gupta was appointed as COO & Director w.e.f. 28th July, 2023, therefore previous year figure is effectively 8 months figure therefore percentage increase/(decrease) showing higher change).

2. Average percentile increase already made in the salaries of employees other than the managerial personnel in the last financial year and its comparison with the percentile increase in the managerial remuneration and justification thereof and point out if there are any exceptional circumstances for increase in the managerial remuneration:

The wage revision for staff cadre employees is done annually as per Company's HR Policy. In order to ensure that remuneration reflects Company performance, the performance pay & annual increment are also linked to organization performance, apart from an individual's performance. The individual increments for staff cadre employees are based on Cost to Company (CTC) consisting of Annual Base Salary and the performance/ variable pay. The percentage increase in remuneration of Mr. Ravinder Nath Jain, Chairman and Managing Director during the year are mentioned in table above.

Average increase in the remuneration of the employees other than the Managerial Personnel and that of the Key Managerial Personnel is in the line with the industry practice and industry trends. Average increase in the remuneration is also guided by factors like economic growth, inflation, mandatory increases, external competitiveness and talent retention. Whilst the Company endeavors on cost effective initiatives including employees cost being one of the key areas of cost monitoring and control, the results of any structural initiatives needs to be measured over a long-term horizon and cannot be strictly compared only with annual performance indicators.

3. The remuneration is as per the Remuneration Policy of the Company as posted on website of the Company at www.maanaluminium.com

Information as per Rule 5(2) of Chapter XIII of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014:

Employed throughout the Financial Year and in receipt of remuneration aggregating ₹. 1,02,00,000/- or more per annum: During the Financial Year 2024-2025, no employee received the remuneration aggregating to ₹. 1,02,000,000/- or more per annum.

Employed for a part of the Financial Year and in receipt of remuneration aggregating Rs. 8,50,000/- or more per month: During the Financial Year 2024-2025, no employee for a part of the financial year is in receipt of remuneration aggregating Rs. 8,50,000/- or more per month.

Board Procedures and flow of information

The Board/Committee meetings are pre-scheduled, and a tentative annual calendar of the Board and Committee meetings is circulated to the Directors well in advance to facilitate them to plan their schedule and to ensure meaningful participation in the meetings. However, in case of special and urgent business needs, the Board's approval is taken by passing resolutions by circulation, as permitted by law, which are noted and confirmed in the subsequent Board Meeting.

In order to facilitate effective discussions at the meetings, the agenda is bifurcated into items requiring approval and items which are to be taken note of the Board. Clarification/queries, if any, on the items which are to be noted/taken on record by the Board are sought and resolved before the meeting itself. This ensures focused and effective discussions at the meetings.

The Board has adopted a 'safety-first' approach for all its discussions and deliberations. All meetings of the Board begin with an elaborate discussion on the Health and Safety initiatives of the Company which are then followed by review of the performance of the Company, review of financial results, industrial relations, Board succession planning, Strategic planning, governance and regulatory matters, declaration of dividend and such other matters as required under the Act, Listing Regulations and other applicable legislations.

Flow of information to the Board

The Board has complete access to all Company-related information. The Company Secretary is responsible for collation, review and distribution of all papers submitted to the Board and Committees thereof for consideration. The Chairman of the Board and the Company Secretary in consensus determine the Agenda for every meeting along with explanatory notes in consultation with the Managing Director. The Agenda for the meetings is circulated well in advance to the Directors to ensure that sufficient time is provided to Directors to prepare for the meeting.

All material information is circulated to the Directors before the meeting, including minimum information required to be made available to the Board as prescribed under Part A of Schedule II of the Listing Regulations. The management makes concerted efforts to continuously upgrade the information available to the Board for decision making and the Board members are updated on all key developments relating to the Company.

With the unanimous consent of the Board, all information which is in the nature of Unpublished Price Sensitive Information (UPSI), is circulated to the Board and its Committees at a shorter notice before the commencement of

the respective meetings on a secure platform.

The Company Secretary attends all the meetings of the Board and its Committees and is, inter alia, responsible for recording the minutes of such meetings. The draft minutes of the Board and its Committees are sent to the members for their comments in accordance with the Secretarial Standards. Thereafter, the minutes are entered in the minutes book within 30 (thirty) days of conclusion of the meetings, subsequent to incorporation of the comments, if any, received from the Directors.

The Company adheres to the provisions of the Act read with the Rules issued thereunder, Secretarial Standards and Listing Regulations with respect to convening and holding the meetings of the Board of Directors, its Committees and the General Meetings of the shareholders of the Company.

The maximum interval between any 2 (two) consecutive Board Meetings was well within the maximum allowed gap of 120 (one hundred and twenty) days. The necessary quorum was present for all the meetings.

Meeting of Independent Directors

Schedule IV of the Act, Listing Regulations and Secretarial Standard - 1 on Meetings of the Board of Directors mandates that the Independent Directors of the Company hold at least one meeting in a year, without the attendance of Non-Independent Directors.

During the financial year 2024-25, 1 (One) separate meetings of the Independent Directors were held on 04th February, 2025.

The Independent Directors, inter alia, discussed and reviewed performance of Non-Independent Directors, the Board as a whole, Chairman of the Company and assessed the quality, quantity and timeliness of flow of information between the Company's management and the Board that is necessary for the Board to effectively and reasonably perform their duties.

Independent Auditor's Report

To,

The Members of Maan Aluminium Limited,

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of **Maan Aluminium Limited** ("the Company"), which comprise the balance sheet as at March 31, 2025, the Statement of Profit and Loss, including the statement of Other Comprehensive Income, the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2025, its profit including other comprehensive income its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Financial Statements' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key Audit Matter

Capitalisation of Property, Plant and Equipment (PPE)

The Company has incurred significant capital expenditure during the year towards expansion of its manufacturing facilities. Determination of which costs qualify for capitalisation as PPE in accordance with Ind AS 16 "Property, Plant and Equipment" involves management judgement.

This includes:

Assessing whether costs directly attributable to bringing the asset to its intended use are appropriately capitalised,

Identifying costs that should be expensed as repairs, maintenance or overheads, and

Determining the date when the asset is available for use.

Given the quantum of capitalisation, and the judgement required in applying accounting principles, we have considered this matter as a key audit matter.

How the matter was addressed in our audit

Our audit procedures included following:

Obtaining an understanding of the Company's capitalisation policy and evaluating its compliance with Ind AS 16.

Testing, on a sample basis, the capital expenditure incurred during the year to assess whether the costs were directly attributable to purchase or construction or bringing the asset to the location and condition necessary for it to be capable of operating.

Reviewing project completion and commissioning to verify the timing of capitalisation.

Evaluating whether costs such as administrative overheads or post-commissioning costs have been excluded from capitalisation.

Assessing the adequacy of related disclosures in the financial statements

Information Other than the Financial Statements and Auditors' Report Thereon

The Company's Management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's annual report, but does not include the financial statements and our auditors' report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it made available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take necessary actions, as applicable under the relevant laws and regulations.

Management's and Board of Directors Responsibility for the Financial Statements

The Company's Management and Board of Directors are responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rule, 2015, as amended.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of

the Companies Act, 2013, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management and Board of Director.
- Conclude on the appropriateness of management and Board of Directors use of the going concern basis of accounting in the preparation of financial statement and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of Section 143 (11) of the Act, we give in the "Annexure A", a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143 (3) of the Act, we report that
 - a) We have sought and obtained all the information and explanations, which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;

- c) The balance sheet, the statement of profit and loss including other comprehensive income, the statement of cash flows and the statement of changes in equity dealt with by this report are in agreement with the books of account;
- d) In our opinion, the aforesaid financial statements comply with the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act;
- e) On the basis of the written representations received from the directors as on 31 March 2025 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2025 from being appointed as a director in terms of Section 164 (2) of the Act; and
- f) With respect to the adequacy of the internal financial controls with reference to the financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".
- g) With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
- The company has disclosed the impact of pending litigations as at 31 March 2025 on its financial position in note 36.1 to 36.2 to the financial statements;
 - The company did not have any long-term contracts, including derivative contracts, for which there were any material foreseeable losses;
 - There has been no delay in transferring amounts, required to be transferred, to the investor education and protection fund by the company during the year ended 31 March 2025.
 - (a) The management has represented that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the company to or in any other persons or entities, including foreign entities ("intermediaries"), with the understanding, whether recorded in writing or otherwise, that the intermediary shall:
 - Directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever ("ultimate beneficiaries") by or on behalf of the company
 - or provide any guarantee, security or the like to or on behalf of the Ultimate Beneficiaries;
 - (b) The management has represented that, to the best of its knowledge and belief, no funds have been received by the Company from any persons or entities, including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall:
 - Directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever ("ultimate beneficiaries") by or on behalf of the funding party or
 - Provide any guarantee, security or the like from or on behalf of the ultimate beneficiaries; and
 - Based on such audit procedures as considered

reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (iv)(a) and (iv)(b) contain any material misstatement.

- The Company has not declared or paid dividend during the year therefore provision of section 123 of the Act is not applicable.
- Based on our examination, which included test checks, the Company has used accounting software for maintaining its books of account for the financial year ended March 31, 2025 which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit we did not come across any instance of the audit trail feature being tampered with and audit trail has been preserved by company.
- With respect to the matter to be included in the Auditor's Report under Section 197(16) of the Act:

In our opinion and according to the information and explanations given to us, the remuneration paid by the Company to its directors during the current year is in accordance with the provisions of Section 197 of the Act.

Annexure “B” to the Independent Auditor’s Report of Maan Aluminium Limited for the year ended 31st March, 2025.

(Refer to in our report of even date)

Report on the internal financial controls with reference to the aforesaid financial statements under clause (i) of sub-section 3 of section 143 of the Act.

We have audited the internal financial controls with reference to financial statements of Maan Aluminium Limited (“the Company”) as of 31 March, 2025 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management’s and Board of Directors responsibility for internal financial controls

The Company’s management and Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal controls stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (“ICAI”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act 2013 (“the Act”).

Auditor’s responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls with reference to these financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls with reference to financial statements, both issued by ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal controls based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls with reference to financial statements.

Meaning of internal financial controls with reference to financial statements

A company’s internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

A company’s internal financial controls with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent limitations of internal financial controls with reference to financial statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at 31 March 2025, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal controls stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by Institute of Chartered Accountants of India.

Maan Aluminium Limited

Notes forming part of the financial statements for the year ended March 31, 2025

Note: 1 Corporate Information

Maan Aluminium Limited (the 'Company') is a public limited Company domiciled in India with its registered office located at Building No. 4/5, 1st Floor, Asaf Ali Road, New Delhi-110002, India. The Company is listed on the Bombay Stock Exchange (BSE) and the National Stock Exchange (NSE). The Company is engaged in the business of manufacturing of aluminium profiles, anodizing & fabrication of profiles, aluminium billets and trading of aluminium ingots, billets & other primary aluminium metals etc. and other related activities.

Note: 2 Basis Of Preparation & Significant Accounting Policies

2.1 Basis of Preparation And Presentation

- i. Basis of Preparation:** The standalone financial statements ('financial statements') of the Company have been prepared in accordance with the Indian Accounting Standards (Ind AS) notified under Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and presentation requirements of Division II of Schedule III to the Companies Act, 2013, (Ind AS compliant Schedule III), as applicable to the standalone financial statements.

The standalone financial statements have been prepared on a going concern basis in accordance with accounting principles generally accepted in India.

- ii. Basis of measurement:** These financial statements are prepared under the historical cost convention except for the following assets and liabilities which have been measured at fair value:

- Certain financial assets and liabilities (including derivative instruments) measured at fair value (refer accounting policy regarding financial instruments),
- Defined benefit plans - plan assets measured at fair value

The financial statements are presented in Indian Rupees and value are rounded to nearest lacs, except when otherwise indicated.

- iii. Measurement of fair values** Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Normally at initial recognition, the transaction price is the best evidence of fair value. However, when the company determines that transaction price does not represent the fair value, it uses inter-alia valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs. All financial assets and financial liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy. This categorisation is based on the lowest level input that is significant to the fair value measurement as a whole: Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date; Level 2 inputs are inputs, other than quoted prices included within Level

1, that are observable for the asset or liability, either directly or indirectly; and Level 3 inputs are unobservable inputs for the asset or liability. Financial assets and financial liabilities that are recognised at fair value on a recurring basis, the company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation at the end of each reporting period.

- iv. Classification of Assets and Liabilities into Current/Non-Current:** The Company has ascertained its operating cycle as twelve months for the purpose of Current/ Non-Current classification of its Assets and Liabilities. For the purpose of Balance Sheet, an asset is classified as current if:

- a. It is expected to be realised, or is intended to be sold or consumed, in the normal operating cycle; or
- b. It is held primarily for the purpose of trading; or
- c. It is expected to realise the asset within twelve months after the reporting period; or
- d. The asset is a cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period. All other assets are classified as non-current.

Similarly, a liability is classified as current if:

- a. It is expected to be settled in the normal operating cycle; or
- b. It is held primarily for the purpose of trading; or
- c. It is due to be settled within twelve months after the reporting period; or
- d. The Company does not have an unconditional right to defer the settlement of the liability for at least twelve months after the reporting period. Terms of a liability that could result in its settlement by the issue of equity instruments at the option of the counterparty does not affect this classification. All other liabilities are classified as non-current.

2.2 Summary of Significant Accounting Policies

a) Property, Plant and Equipment (PPE)

- i. Property, plant and equipment held for use in the production or supply of goods or services, or for administrative purposes, are stated in the balance sheet at cost less accumulated depreciation, accumulated impairment loss, government grant received in respect of Property, plant and equipment. Cost includes all expenses directly incidental to acquisition, bringing the asset to the location and installation including site restoration up to the time when the asset is ready for intended use. Such Costs also include Borrowing Cost if the recognition criteria are met.
- ii. The residual values, useful lives and method of depreciation of property, plant and equipment is

reviewed at each financial year end and adjusted prospectively.

iii. Depreciation on Property, Plant & Equipment is provided on Straight Line Method based on estimated useful life of the assets which is same as envisaged in schedule II of the Companies Act, 2013, In case where the useful life is different from that prescribed in schedule II of the act, they are based on internal technical evaluation. The residual values, useful lives and method of depreciation of property, plant and equipment is reviewed at each financial year end and adjusted prospectively, if appropriate. Management has estimated useful life of PPE as under –

Particulars	Useful lives estimated by the management (in years)
Factory Building	
Factory Buildings	20-30
RCC Road	10
Plant & Machinery including Dies & Patterns	15-30
Electric Equipments/ Installation & Fittings	15
Office equipments	5
Furniture & Fixtures	10
Vehicles	8
Computer including Server & Network	03-06

iv. De-recognition An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

b) Intangible assets

- Intangible assets which is purchased are initially measured at cost. Subsequently, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses, if any
- An item of Intangible asset is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the Statement of Profit and Loss when the asset is derecognised.

iii. Amortisation Finite-life intangible assets are amortised on a straight-line basis over the period of their expected useful lives. Estimated useful life of computer software is estimated for 3 year

c) Impairment of non financial assets
At the end of each reporting period, the Company determines whether there is any indication that its assets (property, plant and equipment, intangible assets carried at

cost) have suffered an impairment loss with reference to their carrying amounts. If any indication of impairment exists, the recoverable amount (i.e. higher of the fair value less costs of disposal and value in use) of such assets is estimated and impairment is recognised, if the carrying amount exceeds the recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money

d) Financial Assets

a) Initial Recognition and Measurement

All financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Financial assets are classified, at initial recognition, as financial assets measured at fair value or as financial assets measured at amortized cost.

b) Subsequent Measurement For purpose of subsequent measurement financial assets are classified in two broad categories:-

- Financial assets at amortized cost
- Financial Assets at fair value through profit or loss
- Financial Assets at fair value through other comprehensive income (OCI)

A financial asset that meets the following two conditions is measured at amortized cost:

I. Business Model Test: The objective of the company's business model is to hold the financial asset to collect the contractual cash flows

II. Cash flow characteristics test: The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payment of principal and interest on the principal amount outstanding. A financial asset that meets the following two conditions is measured at fair value through OCI:-
- Business Model Test: The financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets.

- Cash flow characteristics test: The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payment of principal and interest on the principal amount outstanding. All equity investments are measured at fair value in the balance sheet, with value changes recognized in the statement of profit and loss, except for those equity investments for which the entity has elected irrevocable option to present value changes in OCI All other financial assets are measured at fair value through profit and loss

Where assets are measured at fair value through profit of loss, gains and losses are recognized in the statement of profit and loss

Where assets are measured at fair value through other comprehensive income, gains and losses are recognized in other comprehensive income

III. Impairment of financial assets The Company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk and if so, assess the need to provide for the same in the Statement of Profit and Loss.

IV. Derecognition of financial assets A financial asset is derecognised only when Company has transferred the rights to receive cash flows from the financial asset. Where the entity has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised.

e) Financial Liabilities

i. Initial recognition and measurement Financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument. Financial liabilities are initially measured at the amortised cost unless at initial recognition, they are classified as fair value through profit and In case of trade payables, they are initially recognised at fair value and subsequently, these liabilities are held at amortised cost, using the effective interest method.

ii. Subsequent measurement Financial liabilities are subsequently measured at amortised cost using the EIR method. Financial liabilities carried at fair value through profit or loss are measured at fair value with all changes in fair value recognised in the Statement of Profit and Loss.

iii. Derecognition A financial liability is derecognised when the obligation specified in the contract is discharged, cancelled or expires.

f) Leases Assets taken on lease The Company mainly has lease arrangements for land for Factory and building for offices. The Company assesses whether a contract is or contains a lease, at inception of a contract. The assessment involves the exercise of judgement about whether (i) the contract involves the use of an identified asset, (ii) the Company has substantially all of the economic benefits from the use of the asset through the period of the lease, and (iii) the Company has the right to direct the use of the asset. The Company recognises a right-of-use asset ("ROU") and a corresponding lease liability at the lease commencement date. The ROU asset is initially recognised at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses and adjusted for certain re-measurements of the lease liability.. The ROU asset is depreciated using the straightline method from the commencement date to the earlier of, the end of the useful life of the ROU asset or the end of the lease term. The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the incremental borrowing rate specific to the Company. Lease payments included in the measurement of the lease liability include fixed payments, variable lease payments that known at the commencement date. Variable lease payments that do not depend on an rate are not included in the measurement the lease liability and the ROU asset. The related payments are recognised as an expense in the period in which the event or condition that triggers those payments occurs and are included in the line "other expenses" in the statement of profit or loss. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for

the lease payments made and remeasured (with a corresponding adjustment to the related ROU asset) when there is a change in future lease payments in case of renegotiation, changes of an rate or in case of reassessment of options. Short-term leases and leases of low-value assets: The Company has elected not to recognize ROU assets and lease liabilities for short term leases as well as low value assets and recognizes the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

g) Inventory Inventories are valued at the lower of cost and net realisable value. **Cost of Raw material & Stock in Trade:** Inventory items that are not interchangeable, specific cost are attributed for specific individual items of inventory. Inventory items that are interchangeable, cost are attributed to these inventory items on FIFO Basis.

Cost of Finished goods and WIP: Cost of finished goods and work in progress include weighted average costs of raw materials, conversion costs and other costs incurred in bringing the inventories to their present location and condition. The net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and estimated costs necessary to make the sale.

h) Income Tax Provision for tax is made for the current accounting period (reporting period) on the basis of the taxable profits computed in accordance with the Income-tax Act, 1961 and the Income Computation and Disclosure Standards prescribed therein. Deferred tax is recognised in respect of temporary differences between the carrying amount of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. A deferred tax liability is recognised based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using tax rates enacted, or substantively enacted, by the end of the reporting period. Deferred tax assets are recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised. Deferred tax assets are reviewed at each reporting date and reduced to the extent that it is no longer probable that the related tax benefit will be realised. Current tax assets and current tax liabilities are offset when there is a legally enforceable right to set off the recognised amounts. Deferred tax assets and deferred tax liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities; and the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority.

i) Provisions and contingent liabilities The Company creates a provision when there is present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made. Disputed liabilities and claims against the company including claims raised by fiscal authorities (e.g. Sales Tax, Income Tax, Excise etc.) pending in appeal / court for which no reliable estimate

can be made and or involves uncertainty of the outcome of the amount of the obligation or which are remotely poised for crystallization are not provided for in accounts but disclosed in notes to accounts

j) Foreign Currency Translation

- i. The financial statements are presented in Indian rupee (INR), which is Company's functional and presentation currency.
- ii. On initial recognition, all foreign currency transactions are recorded at foreign exchange rate on the date of transaction. Gain / Loss arising on account of rise or fall in foreign currencies vis-à-vis functional currency between the date of transaction and that of payment is charged to Statement of Profit & Loss.
- iii. Monetary Assets in foreign currencies are translated into functional currency at the exchange rate ruling at the Reporting Date and the resultant gain or loss, is accounted for in the Statement of Profit & Loss.

k) Dividend to equity holders of the Company The Company recognises a liability to make cash distributions to equity holders of the Company when the distribution is authorised and the distribution is no longer at the discretion of the Company. Final dividends on shares are recorded as a liability on the date of approval by the shareholders and interim dividends are recorded as a liability on the date of declaration by the Company's Board of Directors.

l) Revenue Recognition Revenue towards satisfaction of a performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to that performance obligation.

- i. **Sale of goods** The company's revenue from contract with customer is mainly from sale of aluminium products. The Company derives revenue from Sale of Goods and revenue is recognized upon transfer of control of promised goods to customers in an amount that reflects the consideration the Company expects to receive in exchange for those goods. To recognize revenues, the Company applies the following five step approach: (1) identify the contract with a customer, (2) identify the performance obligations in the contract, (3) determine the transaction price, (4) allocate the transaction price to the performance obligations in the contract, and (5) recognize revenues when a performance obligation is satisfied. The Company recognises revenue at point in time. Any change in scope or price is considered as a contract modification. The Company accounts for variable considerations like, volume discounts, rebates and pricing incentives to customers as reduction of revenue on a systematic and rational basis.
- ii. **Interest Income** Interest income is accrued on a time proportion basis, by reference to the principle outstanding and the effective interest rate applicable.
- iii. The materials returned/rejected are accounted for in the year of return/rejection.
- iv. Export incentives & other miscellaneous incomes are recognised on accrual basis. Export benefits are accounted for in the year of exports based on eligibility and when there is no uncertainty in receiving the same. All other income are recognised on accrual basis.

m) Employee benefits

- i. **Short-term employee benefits** All employee benefits payable wholly within twelve months of rendering the service are classified as short term employee benefits. Short term employee benefits such as salaries, allowances, performance incentives, etc., are recognized as an expense at the undiscounted amount in the Statement of Profit and Loss of the year in which the employee renders the related service.
- ii. **Post Employment Benefits Defined contribution plans** Payments made to a defined contribution plan such as Company's contribution to provident fund, employee state insurance and other funds are determined under the statute and charged to the Statement of Profit and Loss in the period of incurrence when the services are rendered by the employees.
- iii. **Defined Benefits Plans** The Company makes annual contributions to gratuity funds administered by the L.I.C. & SBI Life Insurance. The Gratuity plan provides for lump sum payment to vested employees on retirement, death or termination of employment of an amount based on the respective employee's last drawn salary and tenure of employment. The Company accounts for the net present value of its obligations for gratuity benefits, based on an independent actuarial valuation, determined on the basis of the projected unit credit method, carried out as at the Balance Sheet date. The obligation determined as aforesaid less the fair value of the plan assets is reported as a liability or assets as of the reporting date. Actuarial gains and losses are recognised immediately in the Other Comprehensive Income and reflected in retained earnings and will not be reclassified to the Statement of Profit and Loss.

n) Borrowing Cost Borrowing cost that are directly attributable to the acquisition, construction, or production of a qualifying asset are capitalized as a part of the cost of such asset till such time the asset is ready for its intended use or sale. Borrowing cost consist of interest and other costs that an entity incurs in connection with the borrowing of funds. A qualifying asset is an asset that necessarily requires a substantial period of time to get ready for its intended use or sale. All other borrowing cost are recognized as expense in the period in which they are incurred.

o) Earning Per Share Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. Earnings considered in ascertaining the Company's earnings per share is the net profit for the period. The weighted average number of equity shares outstanding during the period and all periods presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares, that have changed the number of equity shares outstanding, without a corresponding change in resources. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of share outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

- p) **Segment reporting** The activity of the company comprises of only manufacturing and trading of aluminium products hence there is no other reportable operating segment as required by Ind AS -108.
- q) **Cash and cash equivalents** Cash and cash equivalents are short-term (three months or less from the date of acquisition), highly liquid investments that are readily convertible into cash and which are subject to an insignificant risk of changes in value.

- r) **Government Grant** Government Grants are recognised where there is reasonable assurance that the grant will be received and all the attached conditions will be complied with. When the grant relates to revenue, it is recognised in the statement of profit and loss on a systematic basis over the periods to which they relate. When the grant is related to assets, it is deducted from the carrying amount of respective asset.

37 As per Indian Accounting Standard 19 "Employee benefits", the disclosures as defined in the Accounting Standard are given below :

Employee benefit plans

Defined contribution plans

The Company makes Provident Fund and Employees State Insurance Scheme contributions to defined contribution plans for qualifying employees. Under the Schemes, the Company is required to contribute a specified percentage of the payroll costs to fund the benefits. The Company recognised Rs. 68.52/- lakhs (Year ended 31 March, 2024 Rs. 65.63/- lakhs) for Provident Fund contributions and Rs. 4.26 lakhs (Year ended 31 March, 2024 Rs. 4.60/- lakhs) for Employees State Insurance Scheme contributions in the Statement of Profit and Loss. The contributions payable to these plans by the Company are at rates specified in the rules of the schemes.

Defined benefit plans

The employees' gratuity fund scheme managed by Maan Aluminium Limited Employees' Trust through insurer (Life Insurance Corporation of India and/or SBI Life Insurance Company) is a defined benefit plan. The present value of obligation is determined based on actuarial valuation using the Projected Unit Credit Method, which recognises each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation. The obligation for leave encashment is recognised in the same manner as gratuity.

37.11 : Sensitivity Analysis: Significant actuarial assumptions for the determination of the defined benefit obligation are discount rate, expected salary increase and mortality. The sensitivity analysis below have been determined based on reasonably possible changes of the assumptions occurring at the end of the reporting period, while holding all other assumptions constant. Please note that the sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated. The results of sensitivity analysis are given below:

39 Fair Value hierarchy

The fair value of financial instruments have been classified into three categories depending on the inputs used in the valuation technique. The hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and lowest priority to unobservable inputs (Level 3 measurements).

The categories used are as follows:

Level 1: Quoted prices for identical instruments in an active market:

Level 2: Directly or indirectly observable market inputs, other than Level 1 inputs: and

Level 3: Inputs which are not based on observable market data.

The following tables provides the fair value measurement hierarchy of the Company's financial assets & financial Liabilities

40 Financial risk management objectives and policies

The risk management policies of the Company are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Management has overall responsibility for the establishment and oversight of the Company's risk management framework. In performing its operating, investing and financing activities, the Company is exposed to the Credit risk, Liquidity risk and Market risk.

a) Credit risk

Credit risk is the risk of financial loss to the company if a customer or counter-party fails to meet its contractual obligations.

Trade Receivables

Credit risk refers to the risk of default on its obligations by a counterparty to the Company resulting in a financial loss to the Company. The Company is exposed to credit risk from trade receivables. Credit risk from trade receivables is managed through the Company's policies, procedures and controls relating to customer credit risk management by establishing credit limits, credit approvals and monitoring creditworthiness of the customers to which the Company extends credit in the normal course of business. Outstanding customer receivables are regularly monitored. The Company has no concentration of credit risk as the customer base is widely distributed.

Other financial assets

The company's maximum exposure to credit risk as at 31 March 2025 and 31 March 2024 is the carrying value of each class of financial assets.

b) Liquidity risk

'Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation. It maintains adequate sources of financing from related parties at an optimised cost.

The Company's maximum exposure to liquidity risk for the components of the balance sheet at 31 March 2025 and 31 March 2024 is the carrying amounts. The liquidity risk is managed on the basis of expected maturity dates of the financial liabilities. The average credit period taken to settle trade payables is about 0 to 30 days. The carrying amounts are assumed to be a reasonable approximation of fair value. The following table analyses financial liabilities by remaining contractual maturities:

Amount (₹. In lacs)

Particulars	On demand	Less than 12 Months	>1 years	Total
As at 31 March 2025				
Borrowings	7,414.78	306.65	1,236.28	8,957.71
Trade Payables	-	1,985.08	-	1,985.08

Trade Payables	-	2,128.27	-	2,128.27
Lease liability	-	19.40	48.63	68.03
Other Financial Liabilities	13.59	180.63	-	194.22
	3,102.83	2,388.42	91.57	5,582.81

c) Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises of three types of risks: interest rate risk, currency rate risk and price risk. Financial instruments affected by market risk includes borrowings, trade receivables and other financial assets & liabilities. The Company is exposed to Interest rate risk, currency risk and price risk.

i) Interest rate risk

The interest rate risk exposure is mainly from changes in floating interest rates. The Management is responsible for the monitoring of the Company's interest rate position. Various variables are considered by the Management in structuring the Company's borrowings to achieve a reasonable, competitive, cost of funding. The following table analyse the breakdown of the financial assets and liabilities by type of interest rate:

Particulars	As at 31-March-2025	As at 31-March-2024
Financial Liabilities		
Floating Interest bearing Liabilities		

Borrowings	8,914.78	3,089.24
------------	----------	----------

The following table demonstrates the sensitivity to a reasonably possible change in floating interest rates on that portion of borrowings affected. With all other variables held constant, the Company's profit before tax is affected through the impact on floating rate borrowings, as follows:

Particulars	For the year ended 31-March-2025	For the year ended 31-March-2024
Increase in basis points	50.00	50.00
Effect on profit before tax	-44.57	-15.45
Decrease in basis points	50.00	50.00
Effect on profit before tax	44.57	15.45

ii) Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Company has foreign currency trade payables and receivables and is therefore exposed to foreign exchange risk. The Company mitigates the foreign exchange risk by setting appropriate exposure limits, periodic monitoring of the exposures and by natural hedging by creating reverse position by way of import in case of having trade receivables in foreign currency and vice versa also company mitigate currency risk by derivative financial instruments like foreign exchange forward contracts. The exchange rates have been volatile in the recent years and may continue to be volatile in the future. Hence the operating results and financials of the Company may be impacted due to volatility of the rupee against foreign currencies.

Exposure to currency risk (Exposure in different currencies converted to functional currency i.e. INR) The currency profile of financial assets and financial liabilities as at March 31, 2025 and March 31, 2024 are as below:

Particulars	For the year ended 31-March-2025	For the year ended 31-March-2024

Forward Contract Exposure	256.74	1,875.91
Sensitivity analysis		
A reasonably possible 5% strengthening (weakening) of the Indian Rupee against USD at 31 March 2025 and 31 March 2024 would have affected the measurement of financial instruments denominated in USD and affected profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant and ignores any impact of forecast sales and purchases.		
Movement at 5% fluctuation	31-March-2025	31-March-2024
Profit	-19.07	32.18
Loss	19.07	-32.18

iii) Price risk

The Company has deployed its funds into various financial instruments primarily in units of debt based mutual funds and treasury bills, etc. The Company is exposed to price risk on such investments, which arises on account of movement in interest rates, liquidity, credit quality of underlying securities, etc.

The value of investment in these mutual fund schemes is reflected through Net Asset Value (NAV) declared by the Asset Management Company on daily basis. While w.r.t. T-bills, the price is determined by the banks and financial institutions. They place bids on the auction platform. Based on bids placed on the platform, the RBI determines the price of the securities. The Company has not performed a sensitivity analysis on these mutual funds/treasury bills, as in Management's opinion, such analysis would not display a correct picture.

41 Capital management

Equity share capital and other equity are considered for the purpose of Company's capital management.

The Company manages its capital so as to safeguard its ability to continue as a going concern and to optimise returns to shareholders. The capital structure of the company is based on management's judgement of its strategic and day-to-day needs with a focus on total equity so as to maintain investor, creditors and market confidence.

The management and the board of directors monitors the return on capital. The Company may take appropriate steps in order to maintain, or if necessary adjust, its capital structure.
